

Lightning Roulette

RULES FOR MG Lightning Roulette

The rules for MG Lightning Roulette at this casino, set out below, are our commitment to the players in ensuring that the gambling we offer is 'Fair and Open'. Any complaints or disputes should be brought to the immediate attention of venue management for resolution.

- The player plays against the House.
- Lightning Roulette uses a standard Roulette wheel, comprising 37 numbers.
- Enhanced odds are randomly selected on 5 numbers per spin in addition to the standard bets on the main betting field.
- These will be displayed, after no more bets, on the table display and illuminated on the playing surface.
- Enhanced odds only apply to the Straight Up of the winning number.
- The wheel is spun in one direction by the Dealer and the ball is always spun in the opposite direction.
- The players can place their bets on the layout either before the ball is spun or during the time that the ball is spinning but may not place, change, or alter any bets after the Dealer has announced 'No more bets'.
- If the winning number is NOT an Enhanced odds number, it will be paid at odds of 30 to 1.
- If the winning number is an Enhanced odds number, it will be paid at odds of 50x, 75x, 100x, 150x, or 200x odds (only Straight Ups are paid at these odds, all other winning bets are paid at standard Roulette odds).
- All bets must be within the specified minimums and maximums displayed at the table.
- Partnerships with a view to exceeding the maximum stake shall not be permitted.
- Any bets not associated with the winning number are lost and surrendered to the House.
- Should a 'No spin' occur, then the bets on the layout are void and will be valid for the next spin.

A PLAYER'S GUIDE TO THE HOUSE EDGE

The House Edge is a measure of how much the House expects to win, expressed as a percentage of the player's wager. For example, in a wager with a House Edge of five per cent the player will lose on average over time, £5 for every £100 wagered.

House Edges vary by region, casino and game. In some games, player betting or skills decisions can affect the Edge, but it's important to keep in mind that the House always has some advantage against the typical player.

THE HOUSE EDGE FOR 'LIGHTNING ROULETTE' **5.31%**

ALL OTHER WAGERS **2.7%**
