Met Points and Tier Points

7. Customers are able to earn points on their Metropolitan Rewards account. These are collected and displayed on Metropolitan Rewards accounts as follows:
 - **"Met Points":** These are points that are earned by Customers via their gameplay and through selected promotions; and
 - **"Tier Points":** These are points that are earned by Customers via their gameplay and will result in Customers being awarded a level of 'Jack', 'Queen' (including 'Queen of Spades'), 'King' (including 'King of Spades' and 'King of Hearts') or 'Ace', which entitle the Customer to various different benefits. Met Points earned through promotions (including but not limited to point multipliers and bonus point days) will not earn any Tier points.
8. Customers are able to collect Met Points and Tier Points automatically in their Metropolitan Rewards account through spending on:
 - all food and beverages purchased at a Metropolitan Gaming Casino;
 - all tracked slots play in all Metropolitan Gaming venues;

- cash poker games (not on tournaments)
- all tracked electronic table games play in all Metropolitan Gaming venues; and
- all tracked non-electronic table games at the following Metropolitan Gaming venues:
 - Empire Casino, 5-6 Leicester Square, London WC2H 7NA;
 - The Sportsman Casino, 16 Old Quebec Street, London W1H 7AF;
 - Alea Nottingham, 108 Upper Parliament Street, Nottingham NG1 6LF;
 - Alea Glasgow, Springfield Quay, Paisley Road, Glasgow G5 8NP; and
 - Manchester 235, 2 Watson Street, Manchester M3 4LP,

(together, the “**Permitted Activities**”).

9. Met Points and Tier Points will appear separately in a Metropolitan Rewards account; however, for the avoidance of doubt, only the Tier Points will contribute towards the Tier Benefits and Tier Levels (defined below). In order to understand what the total Met Points and the total Tier Points in a Metropolitan Rewards account are, the Customer may ask a member of staff at any Metropolitan Gaming Casino venue. Customers may also view the number of Met Points and Tier Points on their account by using the Metropolitan Rewards App or the Metropolitan Gaming customer portal accessible via Metropolitan Gaming’s website.

Validity of Met Points – time restrictions

10. Met Points remain valid providing:
 - (i) the Customer visits a Metropolitan Gaming casino and uses their Metropolitan Rewards (i.e. the Customer either accrues Met Points through in-casino spending and/or redeems accrued Met Points) at least once every six months. If the Customer fails to use the Metropolitan Rewards in a six-month period, the entire Met Point account balance will expire. All Customers will be notified of the proposed removal of their Met Points one month prior to the six-month expiration period;
 - (ii) earned Met Points are redeemed within 12 months after being earned. Any unredeemed Met Points that are older than 365 days will expire. For example, if a Customer earns 100 Met Points on 1 January 2026, these Met Points must be redeemed by no later than 31 January 2027; and
 - (iii) Customers have made at least one redemption in two years - otherwise, the entire Met Points account balance will expire. All Customers will be notified of the proposed removal of their Met Points one month prior to the two-year expiration period.

Tier Points/Benefits

11. There are four basic levels of membership in Metropolitan Rewards. The basic level of membership is ‘Jack’. You can reach a higher level by collecting Tier Points between 1 January and 31 December during any calendar year from 1 January 2025 onwards, in the following quantities (each a “**Tier Level**”):

Queen Tier Level:

- Queen: 18,000 Tier Points.
- Queen of Spades: 36,000 Tier Points.

King Tier Level:

- King: 54,000 Tier Points.
- King of Hearts: 72,000 Tier Points.
- King of Spades: 90,000 Tier Points.

Ace Tier Level:

- Ace: 108,000 Tier Points.

Customers who earned Met Points in 2025 will, from 3rd February 2025, automatically be allocated to the Tier Level for the respective Met Points awarded in 2025 for the calendar year 2026 (for example, Customers who collected 15,000 Met Points in 2025 will be automatically attain the 'King' Tier Level for 2026).

12. Each Tier Level entitles the Customer to additional benefits ("**Tier Benefits**"). Certain Tier Benefits are subject to additional Tier Points qualifying requirements, which are in Appendix 2s. The 'Jack', 'Queen', 'King' and 'Ace' membership levels are each subject to separate rules, by which all Customers attaining the respective Tier Level agree to be bound. These rules (and further information about the respective Tier Benefits) are available online on the following pages: click [here](#) for Mayfair and Park Lane and [here](#) for remaining venues.

13. *Infrequent Customer*

14. Customers wishing to participate in the Metropolitan Rewards programme who: permanently reside outside of the United Kingdom, and visit a Metropolitan Gaming venue less than 20 times in a rolling 365-day period will be classified as an "**Infrequent Customer**". An Infrequent Customer will not be subject to the same Tier Point/Tier Level system set out above, but their Tier Level will instead be calculated based on their aggregated activity at Metropolitan Gaming venues as follows:

- "**Average Daily Tier Points**" means the total number of Tier Points accumulated over 365 days/total number of gaming visits in the same period to any Metropolitan Gaming venue. For example, if an Infrequent Customer visits a Metropolitan Gaming Venue 16 times in a 365-day period and has accumulated a total of 5,000 Tier Points, the Average Daily Tier Points will be 312.5 (calculated as 5,000 Tier Points / 16 visits = 312.5 Average Daily Tier Points).
- "**Average Monthly Tier Points**" means the total number of Tier Points accumulated over any rolling 90 days on a monthly basis. For example, if an Infrequent Customer visits a Metropolitan Gaming Venue 16 times over a 90-day period and has accumulated a total of 5,000 Tier Points, the Average Monthly Tier Points will be 1,666.7 Average Monthly Tier Points (calculated as 5,000 Tier Points collected over 90 days / 3 = 1,666.7 Average Monthly Tier Points).
- Where the Average Daily Tier Points and Average Monthly Tier Points awarded to an Infrequent Customer are not aligned (i.e. the Average Daily Tier Points would place that Customer in a different Tier category to the Average Monthly Tier Points), the Infrequent Customer will always be categorised into the higher category.
- The Tier Level system for Infrequent Customers is shown below. This will be reviewed on a monthly basis to upgrade the Infrequent Customer to their prospective/projected Tier Level:

Tier Level	Average Daily Tier Points	Average Monthly Tier Points
------------	---------------------------	-----------------------------

Ace	1500+	6000
King	750-1499	3000-5999
Queen	400-749	1500-2999
